

## Disability Day on the Hill 2017

On February 8, members of The Arc Mid-South attended Disability Day on the Hill in Nashville. This is an annual event where self-advocates, family members, and organizations from all over Tennessee meet with legislators to discuss issues that are important to people with disabilities.

Some issues that were discussed included Medicaid block grants, pay for DSPs, allowing DSPs to dispense medication to their patients, and the Affordable Care Act. There also was a mid-morning briefing sponsored by the Tennessee Council on Developmental Disabilities.
